VIGÍA 24/7
DIGITAL ACCESS CONTROL

Your condominium safer, smarter and connected.

Digital access control, easy to use and all in the cloud.

Vigía 24/7 lets you manage entries, exits and visitors in a simple, secure way, from anywhere.

- Greater security
- No special equipment
- From your phone or computer

EVERYTHING YOU NEED, IN ONE SYSTEM

QR invitations via WhatsApp
Visitors arrive with their QR and get in quickly and safely.

ID card and license plate check
Greater control over people and vehicles.

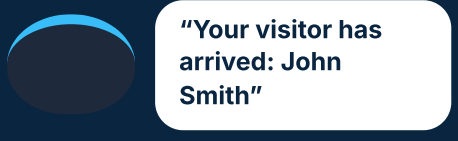

Photo records and traceability
Everything is recorded and available when you need it.

Real-time notifications
Residents know instantly when their visitor arrives.

User and access management
Manage residents, visitors, suppliers and staff.

Integration with Alexa

The resident's Echo announces out loud when their visitor arrives.

Optional add-on, with paid licenses.

Events and reports

Full access history, reports and complete control of your community.

Access from anywhere

Web app you install on iOS, Android and computers. Manage your condominium online, anytime.

Flexible plans for every need

- ✔ No special equipment
- ✔ Easy to use
- ✔ Phone, tablet or computer
- ✔ Personalized support
